Bara Barakat

FrontEnd Developer
Amman, Amman, Jordan

Summary

Hello, I'm Bara Barakat

Programmer and Web Developer (Frontend: Frontend Developer)
My extensive experience enables me to transform new ideas into
wonderful and responsive design interfaces.

Working under pressure proves that I am capable of providing
innovative solutions by building designs that serve you for a long
time and are adjustable.

* What services do I offer (UX UI design):

Achieve a significant improvement in the quality of application
interfaces and the overall user experience.

The ability to modify colors, symbols and text in a way that suits
the identity of the application.

Implement improvements and modifications based on test
feedback and user feedback.

*What services do I provide (web development):

Convert designs from Figma to HTML markup compatible and
responsive to various screens.

Deliver work quickly and accurately on time.

Design and organize codes in a clean and organized manner,
focusing on the basic code and removing excess elements.

Develop innovative and attractive user interface pages.

Modify sites with high accuracy and professionalism.

I can do any project you want in a very short time

And distinguished in the design of personal pages (Portfolio)

* Technical skills in web development:

HTML/HTML5

CSS / CSS3

Media Query

bootstrap Library

JavaScript
